WhatsApp: +971 50 725 6801 | **Email:** haseebmeerza@hotmail.com | **LinkedIn:** linkedin.com/in/haseebmeerza

PROFESSIONAL SUMMARY

Senior finance professional with 17+ years in receivables and credit control for a multi-entity retail group in the UAE, including Oman operations. Managed 2,500+ accounts, including high-volume customers like Amazon, Walmart, Talabat and Noon.

Brought AR aging down from 90+ to 60 days through weekly aging reviews, one-to-one collection meetings with sales supervisors and automated collection workflows, and led a team of 4 to deploy the group's in-house ERP. Strong in month-end closing, audit-ready reconciliations and UAE VAT/FTA compliance, with Power BI and Excel reporting. Now working remotely with clients on AR, data entry and dashboards.

KEY SKILLS & COMPETENCIES

Accounts Receivable | Credit Control | Collections | AR Aging Analysis | Customer Reconciliation | Invoicing & Billing | Cash Flow Management | Credit Risk Management | Dispute Resolution | Month-End Closing | Financial Reporting | Microsoft Excel | Power BI | ERP Systems | Order-to-Cash | Cash Application | DSO | Collection Effectiveness Index | Credit Evaluation | VAT Compliance | Accounts Payable | Bank Reconciliation | Bad Debt Reduction | Audit Support | Team Supervision | Power BI Dashboards | Data Entry | Remote Client Ledgers | Remote Work | Virtual Assistance

WORK EXPERIENCE

Freelance Finance & Data Professional

Independent / Remote | UAE | Mar 2026 – Present

- Manage accounts receivable follow-up, ledger reconciliation and data entry remotely for small and medium businesses.
- Build Power BI and advanced Excel dashboards that track receivables, aging trends and cash flow performance.
- Clean up client ledgers and streamline billing and reconciliation processes, improving overall data accuracy.

Accounts Receivable Supervisor

Al Mir Group of Companies | UAE | Jan 2018 – Feb 2026

- Cut AR aging from 90+ to 60 days and strengthened the Collection Effectiveness Index through a regular follow-up routine and automated collection workflows, improving cash flow and lowering DSO.
- Led a team of 4 to deploy the in-house ERP, improving dispute resolution and efficiency across 2,500+ accounts, then ran end-to-end receivables on it, including cash application and credit control.
- Reviewed the weekly debtors aging report, scrutinized due and overdue payments, and recommended accounts for the collection team, who started follow-up on my recommendation.
- Met each sales supervisor individually every week or fortnight to go through their customers' collections and handed over the unpaid customer list for follow-up, which reduced payment delays and improved cash flow.
- Suggested ERP improvements to the IT team as needs came up, including a promotional expense module: a pre-expense form (activity type, terms, within-budget check per customer), sales confirmation, and a final ERP document when the expense happens, so real promotional spend is recorded accurately.
- Managed receivables for high-volume customers including Amazon, Walmart, Talabat and Noon, working with sales and supply chain teams to resolve disputes faster and shorten collection cycles.
- Reconciled AR ledgers, cleared historical discrepancies and kept month-end closing 100% accurate and audit-ready.
- Evaluated customer credit and monitored accounts on an ongoing basis, reducing bad debt exposure and improving portfolio quality.
- Prepared AR aging reports and cash flow forecasts for senior management to support working capital decisions.
- Supervised and trained a team of 3 AR staff, set KPIs and kept collections, reporting accuracy and month-end close on schedule.
- Kept invoicing, credit notes and financial reporting compliant with UAE VAT and FTA regulations.
- Analysed cost versus revenue performance, flagged underperforming areas and recommended actions to improve profitability.

Accounts Receivable & Payable Executive

Al Mir Group of Companies | UAE | May 2008 – Jan 2018

- Handled invoice issuance, payment application and account reconciliation across both receivables and payables.
- Tracked customer and vendor balances, followed up on overdue payments and resolved outstanding receivables to keep cash flowing.
- Processed utility payments, monthly rental income, journal entries, adjustments, credit notes and write-offs in the ERP with full documentation.
- Produced aging reports, financial summaries and variance analysis, and reconciled customer accounts, ledgers and bank statements.
- Supported month-end and year-end closing, including accruals and journal postings.
- Worked with internal and external auditors and kept processes in line with accounting standards and company policy.
- Took on additional finance and administrative tasks as management assigned them.
- Streamlined AR/AP processes to improve accuracy, ERP reporting efficiency and the timeliness of financial reports.

Retail Operation Associate

Junaid Jamshed (Pvt.) Ltd. | Pakistan | Jan 2006 – Jan 2008

- Led the Candela POS rollout across 13 cities, standardizing accounting, inventory and sales operations.
- Set up workflows between Sales and Finance to reduce reporting discrepancies.
- Ran regular cash and inventory audits and reconciled them for accuracy.
- Supervised stock verification and system mapping in high-volume retail environments.
- Analysed sales performance and KPIs to support decision-making.
- Monitored operations to spot process gaps and improve efficiency.
